

Dear Erasmus friends!

I am very sorry I have not written for so long, but I have been extremely busy preparing for my exam. I hope that you are doing well and you are healthy. I miss you all a lot and often I remember our trips and wonderful time. I hope we will have a chance to meet again.

I am wondering how your school life looks like nowadays in the time of pandemic. Our teaching methods have changed dramatically from one day to another. We are staying at home and our lessons are taking place online. We cannot meet our friends or have any activities with teachers. I am very bored and tired of such learning style – what do you think about that? How does the situation look like in your country?

Despite the fact that we still have not taken our exams I am looking forward to enjoying my summer holidays. I am not sure how the summer time will look like when it comes to COVID-19 situation, but I hope to travel. I dream about visiting Rome, however, I suppose I will change this plan. I will have to visit Polish mountains or the seaside. How about your free time plans? Are you going to travel? What do you think about safety measures?

I am waiting for your reply as soon as possible. I am sending a lot of greetings to you, your families and teachers.

Take care,

*Michał Orzechowski*
